

Source	Table	Notes
Google Analytics	Audience	Users' behaviour on pages
SLS Database	AlpTemplate	The lessons designed using the ALP (active learning process) templates
SLS Database	Annotation	Annotation created by users
SLS Database	Assignment	Information on the assignment details (e.g. type, time, creation info) and the current state of submission
SLS Database	AssignmentStudentInfo	Assignment submission status based on Student
SLS Database	CommunityResource	Resources in Community Gallery
SLS Database	GradingRubric	The grading rubrics crafted
SLS Database	Lesson	Info on the lessons created
SLS Database	LevelAndStream	Info on level and stream
SLS Database	MediaObject	Info on the media objects created
SLS Database	Poll	Info on the polls created
SLS Database	Question	contains info on question created
SLS Database	Quiz	General info of the Quiz
SLS Database	ResourceContributor	contributors of community resources
SLS Database	School	General info of the school
SLS Database	StudentGroup	Info on student group created
SLS Database	StudentGroupStudentInfo	Info on the students and subject of the student group.
SLS Database	StudentGroupTeacherInfo	Info on the teacher of the student group
SLS Database	StudentInfo	Info of the student
SLS Database	TeacherInfo	Info on the teacher
SLS Database	ThinkingRoutine	Info on the thinking routines created
SLS Database	User	Info of the user
SLS Database	AggregatedPollResult	results on poll assigned to students, stored as JSON string.
SLS Database	AttemptHistory	students' attempts
SLS Database	Comment	Info on Comments created
SLS Database	LessonProgressHistory	students' lesson status, can track direct access to MOE library without assignment
SLS Database	Post	posts on walls
SLS Database	QuestionAttempt	individual results on questions
SLS Database	StudentLatestAttempt	tracks student's latest attempts
SLS Database	UserGeneratedContent	tracks users generated content
SLS Database	Content Map	Content map of subject
SLS Database	AlsSession	Links users' ALS session to the content map and lesson
SLS Database	GameBook	stores the info on how the gamified system is defined for the lesson
SLS Database	GameAwardHistory	links user to lesson and game awards
SLS Database	GameUserStats	stores user stats in gamified lessons
SLS Database	RuleCondition	stores rules and conditions for gamified lessons
SLS Database	QtiUploadJob	Info on the QTI files uploaded
SLS Database	GoogleDocument	Info on the Google documents uploaded
SLS Database	AssignmentTeam	Info on the Team created in assignment
SLS Database	PersonalTemplate	The lessons designed using the personal templates
SLS Database	ClassResourceCategory	Info on the Class Group Resource
WOGAA	Web Analytics_VisitorInfo	Details of a visitor on a specific day.
WOGAA	Web Analytics_PageViewInfo	Tracks the load time and time spent on a page
WOGAA	Sentiments_SentimentResponse	Score of the sentiment that a user has given.
WOGAA	Sentiments_SentimentResponse	Status and response of the server at a specific time

Source	Object	Verb
SLS_LRS	Login	Login
